MITSUBISHI ELECTRIC ANNOUNCES DIVIDEND FORECAST FOR THE FIRST HALF OF FISCAL 2008

Tokyo, Sept. 19, 2007 – Mitsubishi Electric Corporation (President and CEO: Setsuhiro Shimomura) announced today its dividend forecast for the first half ending September 30, 2007, of the current fiscal year ending March 31, 2008 (fiscal 2008).

Mitsubishi Electric plans to pay an interim dividend of 6 yen per share (record date: September 30, 2007), with the year-end dividend undecided.

Dividend forecast for the first half of fiscal 2008 (ending September 30, 2007)

	Interim dividend
Dividend per share	6 yen

Reference: Dividend for fiscal 2007

	Interim dividend	Year-end dividend	Annual dividend
Dividend per share	4 yen	6 yen	10 yen

Cautionary Statement

The expectation of operating results herein and any associated statement to be made orally with respect to the Company's current plans, estimates, strategies and beliefs and any other statements that are not historical facts are forward-looking statements. Words such as "expects", "anticipates", "plans", "believes", "scheduled", "estimated", "targeted" along with any variations of these words and similar expressions are intended to identify forward-looking statements which include but are not limited to projections of revenues, earnings, performance and production. While the statements herein are based on certain assumptions and premises that the Company trusts and considers to be reasonable under the circumstances to the date of announcement, you are requested to kindly take note that actual operating results are subject to change due to any of the factors as contemplated hereunder and/or any additional factor unforeseeable as of the date of this announcement. Such factors materially affecting the expectations expressed herein shall include but are not limited to the following:

(1) Important trends

The Mitsubishi Electric Group's operations may be affected by trends in the global economy, social conditions, laws, tax codes, and regulations.

(2) Foreign currency exchange rates

Fluctuations in foreign currency markets may affect Mitsubishi Electric's sales of exported products and purchases of imported materials that are denominated in U.S. dollars or euros, as well as its Asian production bases' sales of exported products and purchases of imported materials that are denominated in foreign currencies.

(3) Stock markets

A fall in stock market prices may cause Mitsubishi Electric to record devaluation losses on marketable securities, or cause an increase in retirement benefit obligations in accordance with a decline in the fair value of pension assets.

- (4) Supply/demand balance for products and procurement conditions for materials and components
A decline in prices and shipments due to changes in the supply/demand balance may adversely affect mainly Mitsubishi Electric's Information and Communication Systems, Electronic Devices, and Home Appliances segments. In addition, an increase in material prices due to a worsening of material and component procurement conditions may adversely affect all of Mitsubishi Electric's operations.
- (5) Fund procurement
An increase in interest rates, the yen interest rate in particular, would increase Mitsubishi Electric's interest expense.
- (6) Significant patent matters
Important patent filings, licensing, copyrights and patent-related disputes may adversely affect related businesses.
- (7) Environmental matters
We may appropriate funds for losses or increase allowances to respond to regulation trends or outbreaks of issues related to the environment. This may impact manufacturing and all corporate activities of the Mitsubishi Electric Group.
- (8) Quality of products and services
We may appropriate funds for losses from defective services or products, and the lowered reputation of the quality of all our products and services may affect the entire Mitsubishi Electric group.
- (9) Litigation and other legal proceedings
The Mitsubishi Electric Group's operations may be affected by lawsuits or other legal proceedings against Mitsubishi Electric, its subsidiaries and/or equity-method affiliated companies.
- (10) Disruptive changes
Disruptive changes in technology, development of products using new technology, timing of production, and market introduction may adversely affect performance mainly in Mitsubishi Electric's Information and Communication Systems, Electronic Devices, and Home Appliances segments.
- (11) Business restructuring
The Mitsubishi Electric Group may record losses due to restructuring measures.
- (12) Natural disasters
The Mitsubishi Electric Group's operations, particularly manufacturing activities, may be affected by the occurrence of earthquakes, typhoons, tsunamis, fires and other large-scale disasters.
- (13) Other significant factors
The Mitsubishi Electric Group's operations may be affected by the outbreak of social or political upheaval due to terrorism, war or other factors.
